Thought I bought Fallout DLC. Accidentally bought Call of Duty.

11/10. I've been playing this game since it was on GFWL. Annoyingly it still requires it even though it's on Steam now. When you first launch it on windows 10, you'll probably get a notice saying GFWL has an update. You must take it or you can't create a character. Despite it saying iv'e played five hours, i've actually beaten it three times now. This is one of my favorite games of all time.. I've always been a fan of "cruel" platformers, Iwannabetheguy, Iwannabetheboshi, Erye's Action, etc. But this one is frankly boring, uninspired, and the platforming isn't very interesting.. Dive into a spiritual journey with Senza Peso. Just sit down and enjoy!

The camera movement can be quite fast and the player/spectator is not always on the ground so motion sickness might occur for first time VR players here.. This game is very easy. I got all achievements in less than two hours.

As a shooting game, it has good graphics and exciting musics.

Player can select a lot of weapon types and many game modes. It also includes an interesting level editor.

If you don't mind about the very slowly move and battle speed, it will be a good game for everyone.. Multiplayer is dead, brothers. The story is sheer violent, satisfying, sweet bolter/melee porn

Best Python IDE Ever!. I bought this game solely for Lego Yoda.

His wide, cheeky smile

His big beautiful eyes

His firm stance

Him.

I want Lego Yoda in my life.

I NEED Lego Yoda in my life.

I dream about being with Lego Yoda constantly.

This game is the closest I'll ever get to being with my one true love.

I'm just so happy I got to experience this.

10/10. <https://www.youtube.com/watch?v=YNC6UUdxT8w>

[I think this game will be very good. I just need to get into it a little more. I seem to be having some issues with the FPS I try everything possible to fix this. I might just need some help on it. My system is more than good enough to run this game so I dont know what the issue is. I have a video posted below so you can see first hand some of the gameplay. Sorry for the FPS like I said I could not figure out how to fix it.](#)

[Also when I was trying to do the next level it woud not go past the loading screen for at least 3 mins I would wait a few weeks on this game. But I do seeing it being a good game so I am about 70/30 right now.](#)

[Update: The game keeps crashing on me so I would wait for a few weeks till this has been fixed.](#)

[^If this review has not made you want to buy this game, you need to be tested.. This game looks very promising.](#)

[It feels great to play.](#)

[There are some really cool ideas happening here.](#)

[It's basically a twin stick shooter roguelike type game, but with an item/ inventory system that allows you to tailor the combat to your liking \(most of the time anyway, depending on the RNG factor\)](#)

[Pretty much all the items you find could be used in combination with another to make some really interesting, and often surprising, results.](#)

[The game has only been out for a few weeks, and already it has greatly improved from the original build.](#)

[I look forward to seeing what the developer does with this game.. Got this in a♥♥♥♥♥pack and expected a ♥♥♥♥♥ crossy road sim. Started my game, heard heavy metal, saw mini-gun, I knew exactly what was to be done. 10/10 would kill snails and chickens to heavy metal all day. Was a good gag, but I don't think ski games are ready for VR lol.](#)
